

GEORGETOWN UNIVERSITY
MEDICAL CENTER

**Medical Center Council of Chairs
2010-2011**

The Council of Chairs serves as an advisory body to the Executive Vice President/ Executive Dean (EVP) of the Medical Center. It may consider all matters relating to the education and research missions at the Medical Center, except that it will not deliberate on rank and tenure applications. All initiatives with significant financial implications for the departments or institutes will be brought to the Council of Chairs for consideration. It will provide recommendations to the EVP on all other major Medical Center initiatives, including, but not limited to, the formulation of academic policy, the establishment of new departments or institutes, the construction of new buildings, any major modifications to any of the four academic missions of the Medical Center. The input of the Council of Chairs will be solicited regarding the appointment of chairs, deans, and committee memberships. It will exercise its advisory function through its representatives on the Executive Committee of the Medical Center.
